

Take me for a spin

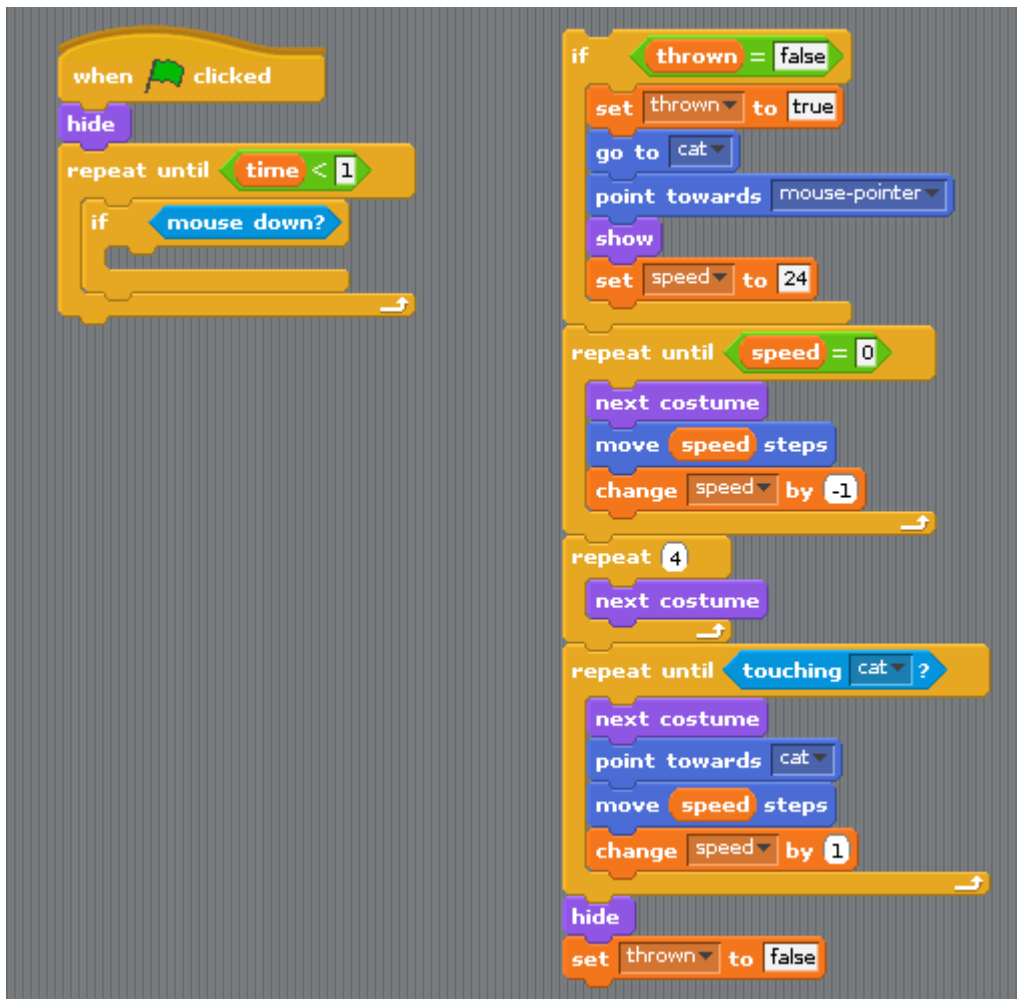

1 Lets use the new pictures you just made and take the boomerang for a spin. Make sure you have clicked on the boomerang icon and then click on 'scripts'.

Give it a name – how about 'boomerang'.

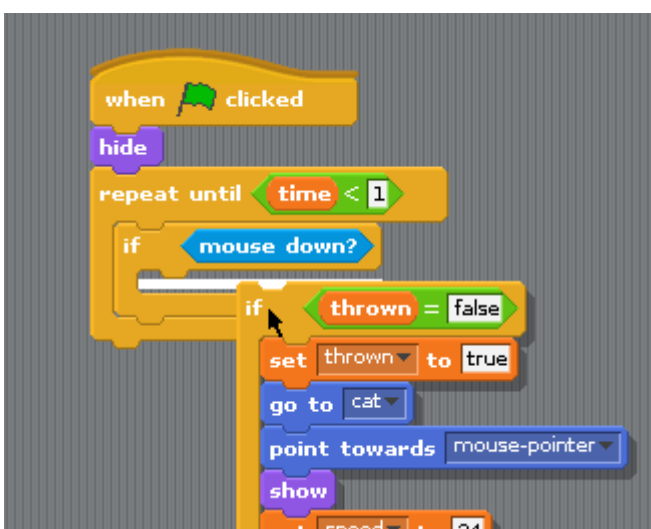

Now let's add some code. There is not really an easy way to break this one up – so I'll give you all the code in chunks. Make sure you copy it exactly :

2 Now put these bits together :

3 and final step. Put the big bit on the right inside the loop on the left.

4 Give it a test and make sure it works. Click the mouse to make him throw.
